The Pacific Image ImageBox 9MP Standalone Scanner keeps converting your slides and negatives to digital files simple. The ImageBox 9MP scanner requires no computer for use, and no software. Simply place your original negative, slide, or photo in the scanning area, under the flip-top, and let the ImageBox do its thing. You'll be able to preview your scan on the built-in 2.7" LCD. The aforementioned media, up to 4 x 6" in size, will scan at a resolution of up to 9Mp and save to an SD card (not included). When you're ready to transfer the files to computer for sharing or editing simply use the drag-and-drop method, via the SD card, and you're good to go.
