- The next best thing to the commercial digital solution -

Works with both
Mac & windows

Product Information:

Dimension: 17 3/4" x14 3/4" x8 1/4"

Weight: 11 lb

UPC: 649899001547

Made in Taiwan

The Pacific Image PowerSlide 5000 CCD Slides Scanner is designed to convert large numbers of 35mm mounted slides into digital files that can be searched, processed, printed, or delivered electronically. With its impressive optical resolution of 5000dpi and 48-bit data conversion, the PowerSlide 5000 will deliver digital files that remain true to the original images.

The included slide magazine gives the scanner the ability to convert up to 50 mounted slides at a time. The Powerslide 5000 also includes software to streamline your digital workflow: Magic Touch for automated dust and scratch removal, and the popular Adobe Photoshop Elements for easy editing and organizing of your images.

Product features and benefits

- Efficient Batch Scanning (50 slides at once)
- Superior Image Quality
- Convenient Interface
- Quick Slide Viewer
- Powerful Bundle

Magic Touch, the proprietary technology developed by Pacific Image Electronics. It's the built-in hardware solution without software touch-up and automatically remove dust & scratches from damaged film and slides.
